

NEBOSH International Technical Certificate in Oil and Gas Operational Safety

NEBOSH Oil and Gas Certificate

The **NEBOSH International Technical Certificate in Oil and Gas Operational Safety** is designed specifically for those with safety responsibilities in the oil and gas industry. It focuses on international standards and management systems, highlighting the importance of process safety management in the oil and gas industry, enabling students to effectively discharge workplace safety responsibilities both onshore and offshore.

The NEBOSH Oil and Gas Certificate is suitable for those who have the responsibility for ensuring safety as part of their day-to-day duties, including:

- Managers, supervisors and employee representatives within the oil and gas industry.
- Newly-appointed health and safety advisers.

Course Content

The NEBOSH Oil & Gas Certificate is made up of one unit:

Unit IOG1: Management of International Oil & Gas Operational Safety

- Health, Safety and Environmental Management in Context
- Hydrocarbon Process Safety
- Fire Protection and Emergency Response
- Logistics and Transport Operations

Assessment

Unit IOG1 of the **NEBOSH Oil & Gas Certificate** is assessed by a two-hour written examination.

Entry Requirements

The **NEBOSH Oil and Gas Certificate** is a technical qualification and requires certain knowledge before starting the course.

- **Health and Safety Knowledge**
It is highly recommended that students hold the [NEBOSH International General Certificate](#) or equivalent before studying this course. If you do not have this knowledge, RRC provide reference materials to cover this but you should allow for a further 50 hours of study.
- **Experience of the Oil and Gas Industry**
Students require a wider understanding of the oil and gas industry such as that gained from working in the industry, itself. Students without this experience will need to study additional reference materials provided with the course which outline how oil and gas is extracted and processed. You should allow a further 25 hours study if you need to study this.
