

NEBOSH HSE Certificate in Process Safety Management

NEBOSH HSE Certificate in Process Safety Management

The **NEBOSH HSE Certificate in Process Safety Management** has been jointly designed by NEBOSH and the UK enforcement agency - the Health and Safety Executive (HSE). It is designed specifically for those with safety responsibilities in the process industry, such as chemical manufacturing and oil & gas. It focuses on international standards and management systems, highlighting the importance of process safety management in the process industry, enabling students to effectively discharge workplace safety responsibilities. The **NEBOSH HSE Certificate in Process Safety Management** is suitable for those who have the responsibility for ensuring safety as part of their day-to-day duties including:

- Managers, supervisors and employee representatives within the process industry
- Newly-appointed health and safety advisers
